Marco Cabral

FRONTEND DEVELOPER

Porto, Portugal
cabralovil@gmail.com
github.com/Mcabral18
Languages: Portuguese (Native) | English

CORE COMPETENCIES

Vue.js | **Nuxt** | **TypeScript** | **JavaScript (ES6+)** | **Pinia** | **HTML5 / CSS3** | **SASS / SCSS**

Geospatial Web: Google Maps Platform (Directions, Places, Geocoding APIs), Leaflet Map API, Leaflet Geoman, Turf.js, GeoJSON/KML

Immersive Media / 3D: WebAR/WebVR, 360° Media, 3D Object Rendering

Other Expertise: React (Beginner), Chart.js, ESLint, Vite, WordPress Custom Themes, ACF Pro

ABOUT ME

Experienced frontend developer specializing in architectural planning and building fast, responsive, and modern web applications using Nuxt.js, Vue.js, and TypeScript. Over the course of my career, I have evolved from writing high-performance, modular custom WordPress themes to engineering complex Single Page Applications (SPAs), SaaS business management tools, interactive 3D scene managers, and cutting-edge WebAR/WebVR platforms. Highly dedicated to ensuring structural code quality, driving peer code reviews, actively maintaining dependencies, orchestrating automated deployments, and optimizing client-side performance across all viewports.

PROFESSIONAL EXPERIENCE

Frontend Developer — Immera

Oct 2025 – Present | Remote

- Architected and scaled a highly sophisticated agricultural SaaS management platform focused on comprehensive vineyard tracking, irrigation management, pest control, automations/timers, sections, areas, and geospatial location mapping.
- Implemented complex geofencing and geographical data transformations using Nuxt 3, Pinia, Leaflet, Leaflet Geoman, Turf.js, ToGeoJSON, and ToKML.
- Built real-time data analytical dashboards rendering sensor metrics, sector loads, and visual logs using Chart.js.
- Enforced code quality standards and setup CI/CD workflows to guarantee repository health, package stability, and automated deployments.

Featured Live Projects: vinewineplatform.com

Frontend Developer — X-Plora / VizitAR

Oct 2023 – Present | Porto, Portugal

- Engineered an interactive multi-domain SaaS backoffice and web dashboard infrastructure providing customized augmented reality tours, map points, interactive quizzes, 3D model loaders, and 360° video/audio players.
- Created custom content management architectures (CMS) tailored to real-time 3D scene assembly, virtual view handling, and immersive education environments.
- Led rigorous peer code reviews and defined team architecture guidelines to maintain long-term codebase scalability and consistency.

Frontend Developer — La Bomba Studio

May 2023 – Oct 2023 | Porto, Portugal

- Developed production-ready modern web solutions utilizing Nuxt.js, targeting seamless server-side rendering (SSR) and optimized SEO visibility.
- Drove frontend optimizations to maximize application performance, improving lighthouse scores and core web vitals across client platforms.
- Managed continuous codebase maintenance, proactively driving dependency updates and optimizing build setups for SSR rendering.

Web Developer — Legendary People + Ideas

Mar 2021 – May 2023 | Porto, Portugal

- Programmed, architected, and shipped high-scale Custom WordPress Themes completely from scratch, mapping complex functional designs cleanly via Advanced Custom Fields (ACF Pro).
- Optimized Core Web Vitals and page load speed across major corporate hubs, achieving pixel-perfect frontend fidelity and broad cross-browser compatibility.
- Oversee project maintenance lifecycles, ensuring timely package updates, clean version control, and seamless deployment pipelines.

Frontend Developer (Internship) — IZILABS

Feb 2020 – Jul 2020 | Vila Real, Portugal

- Built interactive UI layout modules and responsive web landing pages for eco-focused global sustainability networks.
- Co-developed core frontend functionalities for the active launch of the global platform Planetiers.

> **Featured Live Projects:** planetiers.com

EDUCATION

Licenciatura em Comunicação e Multimédia

2017 – 2020

Universidade de Trás-os-Montes e Alto Douro (UTAD) — Vila Real, Portugal
